

October 28, 2010

Dear Jody,

I want to thank you for the splendid entertainment and learning experiences our young patrons were treated to through your programs at our branches! I have heard nothing but rave reviews from the youth services staff. Staff mentioned that adults who had attended the programs said they wished that the adult programs could be as exciting and as much fun as they had attending your performance. I, too, enjoyed the performance I saw at the West Boca Branch and noted that there was not a squirmy body in the room. All eyes and ears were riveted to the fun of the experience and time stood still. The audience did not even move when you said that the show was over. I really believe they could have stayed for another hour of enjoyment!!

I was so sorry to hear that you had hurt your arm and am amazed at what a trouper you were to carry on and do the final performance at the Gardens Branch. Thank you so much for your valiant commitment to that last performance! I do hope that your arm is alright and that you did no more harm to it through having to do that performance.

I know that you are teaching now in the Broward schools, but I certainly hope that you might be available to do more programs for us in the future. They were the best we have had this year and the youth services staff and I would love to have you return for an encore.

Thank you again for your time and great talent!

Cilla
